

25 - *A. caespitosa* - 2 -
21 *Arenaria striata* Michx.

45 - *Glyceria fluitans* R. Br.

46 *G. maritima* Trin -

48 *G. aquatica*

51 } *Ran. acutifolia*.

? } *debilis* Don. *debilis*

52 } I think there are *Ran. debilis* Don. *debilis*

53 } *Ran. acutifolia* *debilis* Don. *debilis*

54 } I take to be the same -

56 } There are *Ran. debilis* - 57 might be for

57 } *Ran. arctica* R. Br. - List them the larger
specimens! - *R. arctica* is the only species
I know with that very copious long work
to the roots - *R. stenantha* Trin is described
as having the same -

59 *Ran. sylvestris* Don.

55 *R. campestris* Don.

60 *R. arctica* R. Br. *debilis* Don.

61 *R. arctica* R. Br. *debilis* Don.

46 *Cy. bulbosa* L. *debilis* Don.

47 *Cy. bulbosa* L. *debilis* Don.

1 *Justicia* *debilis* Don.

2 *Justicia* *debilis* Don.

3 *Justicia* *debilis* Don.

4 *Justicia* *debilis* Don.

21 *Justicia* *debilis* Don.

22 *Justicia* *debilis* Don.

23 *Justicia* *debilis* Don.

30 *Justicia* *debilis* Don.

51 } *Ran. acutifolia*.

52 } *Ran. debilis* Don. *debilis*

53 } *Ran. acutifolia* *debilis* Don. *debilis*

54 } I take to be the same -

56 } There are *Ran. debilis* - 57 might be for
57 } *Ran. arctica* R. Br. - List them the larger

List of Doct. J. W. Robbins, L. Sup. Grasses

- 38 *Panicum depauperatum* Michx.
 39 " " "
 40 " " "

14 *Milium effusum* L.

31 *Setaria viridis*

32 *Oryzopsis americana* Torr.

33 " *asperifolia* Chapm.

23 *Brachyelytrum aristatum* Beauv.

28 *Sci. - arundinacea* - var. / *undulata* Gray

36 } *Alopecurus gemmatulus* L. - in which

37 } I include *A. aristatus* & a few others as
 I am unable to distinguish them as
 species -

40 *Sporobolus serotinus* Gray.

41 *Ageratis scabra* Willd. - var. *glabra* -

42 " " "

43 " " "

44 " " or *A. elatior* Trin. - a

species in which I have no confidence.
 The ligule is white, one of the characters
 for *A. elatior* is wanting - I should
 call it *A. scabra* -

15 *Calamagrostis Learysdoffii* Kun

16 " *canadensis* Desv.

17 *C. Learysdoffii*? show this to Gray - I
 have no authentic specimens -

18 } *C. stricta* Kun

19 } " "

27 *Stachys spicata* - Beauv.

35 *Trisetum subspicatum* Beauv. - the typical
 form -

34 - var. *moble* Gray - but very broad leaves
 have only 2-3 - and *glabra* - *anisiformis* - but it
 is very variable

26 *Aira flexuosa*

24 *A. caespitosa* - The specimen - agrees

with my own of var. *pubescens* - but where
 is one to stop if he makes names varieties in
 this species - you should be very safe
